VOLUME 2 - PART 5

ANALYSIS OF THE 1953 FISHING OPERATIONS OF 30
INSHORE BOATS ON THE GASPE PENINSULA, P.Q.

DEPARTMENT OF FISHERIES OF CANADA
Markets and Economics Service

Ottawa

July, 1954.

CAI

FOREWORD

This report presents the accounting results of the 1953 fishing season for 30 inshore cod fishing crews and six salmon crews operating on the Gaspé coast in the Province of Quebec. From the beginning to the end of the fishing season, the fishermen kept detailed records of their operations, including the quantities of fish sold and the income received from these sales together with the expenditures incurred in the catching of fish and in the maintenance and repair of boat, engine and gear. Information was also recorded on fishing effort and time spent, both at sea and on shore, in activities connected with the fishing enterprise.

In this work the fishermen were instructed and supervised by Roger Gosselin, of the Markets and Economics Service, Department of Fisheries, Ottawa.

The study was initiated in 1949 by the Fisheries Prices Support Board for the purpose of providing information on fishermen's incomes and costs. Following the organization of the Markets and Economics Service, the responsibility for the project was transferred to it.

The present compilation of results for the 1953 season, the fifth year of the study, was prepared under the direction of John Proakie, who is in charge of production studies for this Service.

This report is released in tentative form, to meet current requests for information. It is planned to release the full results of the study in a series of reports, to be designated as follows:

Volume I - Summary of Analysis and Findings (Covering the five-year study).

Volume II - Detailed Tables.

Part I	-	Accounting Results for the 1949 season.
Part II	-	" " " " 1950 "
Part III	-	" " " " 1951 "
Part IV	-	" " " " 1952 "
Part V	-	" " " " 1953 "

The active participation of fishermen is essential to the success of an undertaking of this kind and we acknowledge our debt to those who cooperated with us in the present study. Of great help, also, has been the interest and sympathetic support of both the Department of Fisheries of the Province of Quebec and the Quebec United Fishermen. The latter organization supplied office space and office equipment during the years 1949 to 1952.

W.C. MacKenzie

W.C. MacKenzie, Director,
Markets and Economics Service,

Notes:

- (1) Small Boats range from 20 ft. to 31 ft. in length. These are open boats with a two-men crew. Engine at center, fish at each end.
Medium Boats " " 32 " to 39 " " " . Some of these are decked.
Large Boats " " 40 " to 48 " " " . These boats are decked and carry two masts. On the Gaspé coast these boats are known as "barges".
- (2) Small boats and some medium boats use 50 fathom hand-lines. The larger boats use trawls exclusively.
- (3) Herring nets in most cases, also some mackerel nets.
- (4) In this study "North Shore" refers to the area from Grande Vallée to Cap des Rosiers and "South Shore" from the town of Gaspé to Carleton. (see map)

Notes:

Inventory of Equipment:

- (1) Floating - boat, engines, sails, hawsers, compass, boat anchor, boom, row boat.
- (2) Catching - herring and mackerel nets, seines, lobster pots, jiggers, trawls, hand-lines, buoys, grapnels, rope, racks, booms for nets.
- (3) Shore - sheds, flakes, capstan, ice houses.
- (4) Processing - knives, cutting table, tubs, hand barrows, boxes, fish prongs.
- (5) Other - water tanks, oil and gas lanterns, galley equipment such as stoves, dishes, etc.
